

Aston Life Sciences is the proud leading company in Consulting, Recruitment and Executive Search for the Pharmaceutical, Biotechnology, Medical Devices and Diagnostics industry. Based in Switzerland we serve Eastern and Western Europe, North America and Russia. Life Sciences is our passion and we are committed to successfully support our clients in their quest to improve patient's health all around the world.

To establish our growth in the French- speaking part of Switzerland, we are looking for a consultant to join our team as:

Biotechnology Process Validation Specialist

Your role:

As a Validation Specialist, you will be working on an independent position directly at our Client's site. Our Client is an international biotechnology company based in the French- speaking part of Switzerland. You will be working on creating validation protocols for USP/DSP processes and cleaning.

Your tasks:

- Develop and implement GxP-compliant protocols for biotechnology process and cleaning validation
- Ensure compliance with international regulations
- Ensure timely processing of related deviations, investigations and changes
- Competent and timely creation of validation documents for USP/DSP in collaboration with the Quality teams

Your profile:

- Minimum 1 year of relevant experience in biotechnology industry
- **Excellent command of French is mandatory**
- Experience working in a GxP regulated environment
- Deep understanding of upstream and downstream processes
- Knowledge of cGMP requirements

Starting date: 1 February 2019

Location: French- speaking part of Switzerland

Level:

Domain of experience: Biotechnology

Category: Biotechnology

Closing date: 01 January 1970
